## **Reasons why providing the evidence for the existence of Sars-CoV2 by those making this claim is an urgent matter**

- There is no irrefutable evidence for the existence of Sars-CoV2, the virus said to be the cause of Covid-19. No one has ever isolated this virus and sequenced its genome. There are however many fraudulent claims made in this regard.
- All three methods used to diagnose Covid-19 viz. symptoms, the RT-PCR test and Antibody tests are invalid. The symptoms experienced by Covid-19 patients are not unique to this condition. The RT-PCR test is invalid and scientifically meaningless in the diagnosis of Covid-19. The inventor of this technique categorically stated that it is not a diagnostic test and hence should not be used to diagnose any condition. And finally, there are no specific monoclonal antibodies to the coronavirus.
- Studies show a correlation between outbreaks of the condition called Covid-19 and the deployment of 5G networks.
- Besides Electromagnetic Radiation, there are other root causes which can explain the symptoms, signs and conditions seen in patients diagnosed with Covid-19.
- The evidence is irrefutable that Covid-19 is a planned pandemic orchestrated to usher in the technocratic, transhumanist New World Order, the purpose of which is to enslave and depopulate humanity.
- One of the primary purposes of the Covid-19 'pandemic' is to vaccinate the majority of the global population as part of the technocratic, transhumanist agenda.

- In the short span of a few months the covid injections have killed tens of thousands of people and injured hundreds of thousands according to the Vaccine Adverse Events Reporting System (VAERS) in the US and other similar reporting systems in other parts of the world.
- The lockdown measures implemented by government (social distancing, wearing of facemasks and other measures) are extremely harmful to the holistic health and wellness of the population – physical, psychological, sociological and spiritual, including an increase in the risk of suicide. See [The impact of the COVID-19 pandemic on suicide rates - PubMed \(nih.gov\)](#) Studies prove that wearing face masks offer little benefit outside of the operating theatre and can be detrimental to health and wellness. There is in fact no science supporting the wearing of face masks to prevent infection. Since the virus has not been proven to exist it is illogical to practice social distancing. Human beings are inherently social beings and maintaining physical distance from each other in a general sense is psychologically harmful.
- The impact of the lockdown on the South African economy has been devastating as explained on the website of the Department of Statistics of the South African government. It states the following: *‘Steep slump in GDP as COVID-19 takes its toll on the economy - The punch in the gut was severe. Perhaps the second quarter of 2020 will become known as the pandemic quarter. South Africa’s economy suffered a significant contraction during April, May and June, when the country operated under widespread lockdown restrictions in response to COVID-19.’* See [Steep slump in GDP as COVID-19 takes its toll on the economy | Statistics South Africa \(statssa.gov.za\)](#)

Evidence not provided for the above claims is provided in the documents entitled *‘What You Should Know About Covid-19’* and *‘Legal Challenge to the Planned Covid-19 Vaccine Mandates’* both of which are available on the website [Show us the Virus!!](#)
